

NORIAKI KANO Laboratories based in Thessaloniki Greece, is an innovative-focus organization focused mainly on issues as process, protocols, certifications and accreditations, world class manufacturing tools, lean managements and manufacturing.

Last 5 years the organization has been implementing a lot of inclusion projects.

Amongst them has to be mentioned the innovatives :

 **EXEDRAMark s1-s5 protocol** “a standard for sports and society not profit”,
European award winning 2019 Erasmus for “Equal Sports for all.

 **Alpha protocol** for “responsible excellence of wheelchairs basketball clubs in Greece” adopted by the Greek Federation for Basketball with wheelchairs. An innovative protocol, unique for Greece, aiming to become National Prototype , de facto.
European award winning 2019 Erasmus for “Equal Sports for all.

 **DESCROPTIO V1.0** protocol. An integrated audio descriptive commentary (ADC) system. for blind and partially sighted persons.
European award winning 2019 Erasmus for “Equal Sports for all.

Michail Lolidis CEO of Noriaki Kano Labs since 2019 is responsible for the innovation hub of Adapted Physical Activity/ Developmental and Physical Disabilities Lab (part of the School of Physical Education and Sport Science) of the National & Kapodistrian University of Athens (NKUA).

Amongst important initiatives undertaken are: project “VIWAS “ (inclusion of blind persons in water sports), project “ ACCESo “ accessibility and inclusion of persons with disability in athletic stadia and events.
